

Nancy Ray's Bio

Nancy received her B.A. from Miami University (Ohio) and an M.S. in Counseling from Wright State University (Ohio). She was a medical social worker for 19 years working in hospitals, longterm care facilities and hospice.

Currently Nancy is employed at Zenergy as a nationally certified massage therapist. She moved to the valley in 1997 and quickly realized that homeownership was not an option relocating to Utah in 2003. The valley beckoned her return in 2004. It wasn't until she saw ARCH's photo gallery of real people in the valley obtaining affordable housing that she saw herself and realized finding a home was possible. In December of 2008 Nancy moved into the Scott Northwood Building in Ketchum.
